They can request, or take it out of unwilling to use their mind control abilities to shock the sim. They will evolve in power as they use their otherworldly capabilities and can turn into a bat, continue to work at super speeds to cross the neighborhood, or transport into a shaft of fog. Using powers gives them an encounter that steadily builds their rank, rewarding you with tricks that can be spent to get new vampire powers (and the living), expanding their capabilities and making each vampire exceptional.
